Spotting Fake News Stories

- Check the URL of the story; abcnews.com is a legitimate news source, abcnews.com.co is not. Anything that ends with something other than .com is likely to be a spoof.

- If someone important is quoted, google the quote. It can be tracked back to an event or a statement if it is legit.

- Reverse search the questionable image on Google. Right click the image and copy the URL. Go to images.google.com and paste the URL to find out where it came from.
